DETAILED ACTION

1. This action is in response to applicant's response filed on Oct 04, 2007. **Claims 1-22** are pending in the present application.

Double Patenting

2. With the approval of the Terminal disclaimer, the obviousness-type double patenting rejection is withdrawn.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Claim 1 recites a subscriber line interface circuit apparatus and limitations for the following: "a first driver for driving a downstream data signal in a non-voiceband range and a metering signal onto a subscriber line; a second driver for driving a downstream voice signal in a voiceband range onto the subscriber line, wherein the second driver is distinct from the first driver; and receiver circuitry coupled to provide an upstream data signal and an upstream voice signal from an upstream signal carried by the subscriber line, wherein the first driver and receiver circuitry reside on a same first integrated circuit die". Examiner interprets the integrated circuit die (702), as shown in Fig. 7A, that includes the first driver (720) and the receiver circuitry coupled to receive analog signals on a subscriber line. Further, the die (702) does not include the second driver (792). The Specification supports this limitation [Fig. 7A; page 17, line 16 to page 18, line 33].

In this context, the applicant's arguments are persuasive. The prior art of record does not teach these limitations in the context of the claim. Therefore, claim 1 is indicated allowable. Claim 12 is essentially similar to claim 1 and is indicated allowable. Further, claims 2-11 being dependent from claim 1, and claims 13-22 being dependent from claim 12 are also indicated allowable.

New search updates reveal no other prior art which teaches the limitations in the context of the claims.

4. The claims have been re-numbered as follows:

CLAIMS NUMBER (ORIGINAL)	CLAIMS NUMBER (FINAL)
1-22	1-22

Claim no. 1 along with figure number 7A will be published in the Official Gazette.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramnandan Singh whose telephone number is (571) 272-7529. The examiner can normally be reached on M-TH (8:00-5:30).
